Ask yourself these  
**THREE  
QUESTIONS**

How much money  
is my company wasting  
with an archaic, energy  
gobbling data center?

(You might not want to know)

Is my company's  
data center environment  
positioned for expansion  
and the new Cloud  
computing shift?

(Ask us, the experts)

What is our  
Disaster Recovery plan?

(Your data isn't Mission  
Critical until it's gone)

Dave Goerke & Associates (DGA) is a full service data center and IT consultancy firm, serving a multitude of industries with mission critical data center needs. Our President, Dave Goerke is renowned as one of the most prolific data center consultants in the industry, with successes that span over 30 years of supervising and leading more than 250 commercial projects.

DGA's team mission is to provide clients with efficient and effective data center solutions that cover all aspects of the client's project needs from site selection, data center design, construction, systems selection, equipment sales, integration and implementation. DGA's deep understanding of intricate power backup systems and efficient upgrades, to complete site construction and renovation, is unrivaled in the IT infrastructure industry. Our successful philosophy of treating each project with ownership and professional dedication has led us to become the foremost choice for all of your data center needs.
